

LEROS Point to Point
Safety is our #1 Priority

We know a lot has changed in the past few months and realize you might not have any in person meetings right now, but when you feel the time is right, we want to let you know a few things we are doing to ensure your safety.

As an industry leader we have introduced new sanitization standards to minimize your risk. All our chauffeurs have now been trained on proper protection from Covid-19. They are screened daily by taking their temperature and are required to wear masks and gloves at all times. We have created social distancing guidelines in each of our vehicles. Our team is deep cleaning and disinfecting all our vehicles with EPA approved cleaning chemicals and our chauffeurs are wiping down all the high touch points within the vehicle before each pickup. Soft film safety dividers have been installed in all our vehicles for an extra level of client protection. We will continue to work hard to ensure your safety and when you are ready to call on us, we are here.
